- Header with logo and menu
- Header image
- Contact Info like Address, Phone Number, Email address etc.
- Google map
- Footer

This page will have a form with the following fields:
- Name
- Email
- Subject
- Message
- Captcha

Search Result

Elements of the page:
- Header with logo and menu
- Search result

Team

Elements of the page:
- Header with logo and menu
- Header image
- Team members image and short bio
- Footer

News List

Elements of the page:
- Header with logo and menu
- Header image
- List of the Titles with date of news entered by Admin
- Footer

News Detail

Elements of the page:
- Header with logo and menu
- Header image
- News Title
- News Description
- Search result

Privacy Policy

Elements of the page:
- Header with logo and menu
- Header image
- Privacy policy content
- Footer

Footer

Elements of the footer:
- About brief
- Quick links to all pages
- Privacy policy

-	Facebook feed	

Admin Features

Id	Features	Description
1	Category	There will be a category section in Admin to create categories for organizing products into separate sections
1.1	Add Category	Admin will be able to add category with following data: - Category Name
1.2	Edit Category	Admin will be able to edit category details added in the above section
